Principal Message

“Being outstanding is a lifelong journey rather than a destination.”

As education undergoes a paradigm shift, Amity strives for both academic success and the complete development of the child. The Institute's concept, which is inspired by the unmatched vision and goal of our founder president, Honourable Rajkishorji K Modi, and Managing Director Sanketji R Modi, encourages students to go beyond the classroom and become lifelong learners, setting them on a path toward success.

The Institute seeks to establish a learning atmosphere that emphasizes individual growth, fosters creativity in both thinking and deed, fosters respect for legacy, is environmentally conscious, and supports globalization.

Education is my most treasured asset and the embodiment of love. Education dispels ignorance and gives a man the courage to think and act morally by illuminating him. It gives a lady more confidence and broadens her mental horizons. It gives a community life and gives a man the respect and admiration he deserves for his work. That's why I adore it.

I extend my warmest wishes for good fortune, harmony, and wealth to everyone involved in the admirable endeavor of promoting education and all of its attributes, goals, and purposes.

Editorial Message

“Good leaders create a vision, articulate a vision and passionately owns a vision and turn it into a reality” - Jack Welch.

As the editor, I pledge to the college that I will, with tenacity, effort, and diligence, take on any duty assigned to me by the administration and complete it to the best of my abilities.

I anticipate complete collaboration from my friends and fellow students when it comes to the college magazine. The Editorial Board of SBSPPM’s IOP always welcomes fresh concepts and topics. The editorial team is excited to give students a platform to share their deepest ideas through this publication. My goal is for this magazine to eventually become our college’s "lingua franca."

TOMORROW WILL NEVER COME!

The phrase "Tomorrow Never Comes" is a powerful reminder that we should live in the present moment. It implies that the future is uncertain and that we should focus on what we can control today. This essay will explore the importance of living in the present and how excessive worry about the future can lead to missed opportunities and anxiety. While it's crucial to plan for the future, we must also appreciate and take advantage of the present.

The phrase "Tomorrow Never Comes" emphasizes the significance of living in the present moment. Many people get caught up in planning for the future that they forget to enjoy the present. We must be mindful of our thoughts and actions, focusing on the present moment rather than worrying about what's to come. Living in the present allows us to enjoy life's simple pleasures and appreciate the beauty around us. This mindset can help us feel more fulfilled and content with our lives.

NEVER GIVE UP

‘Never give up’ is the attitude that one should carry and live life with, no matter what the situation is. One should keep struggling and fighting with the odds. Failure is not an option for anyone. Even though you might have failed in any process, you should stand up and do it again, but in any case, you should never give up on your dreams. To never give up is a virtue that not many people possess.

Success is not everyone’s cup of tea. It requires lots of sleepless days and nights, lots of sweat and a great amount of hard work and it can only be achieved if you never give up on the small failures that you face in the process. Always make sure that no matter what the situation is, you never give up in your life when nothing seems to go the way we planned, and the future looks bleak. In times like these, we cannot help but feel that there cannot be a reason to keep on trying; after all, what is the point in working on something when you know it is going to be futile in the end? But to be fair, it is never a good idea to just give up, not until you have given your best to the situation.
